

14 MONKLAND

House built: 1903

Ceiling Height - 13 feet

Owners have lived in house for 12 years. They have tried to reuse and keep as much of the original house as possible when completing their renovations. For example, bathtubs, some tiling, some bathroom cabinetry, radiators, etc.. are original to the house.

Homeowners are very artistic and much of the artwork on walls is created by the homeowner and her daughters.
